Art Unit: 3763

## **Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claim(s) could either not be found or was not suggested in the prior art of record. The subject matter not found was a vent system for an infusion drip chamber that comprises an automatic air eliminator with a mechanical air eliminator that vent air from the drip chamber. The automatic air eliminator is position between a passageway that is formed from the interior and exterior of the drip chamber. The automatic air eliminator is some structure such as a membrane or filter that prevents fluids from exiting the drip chamber, but allows air to pass in a continuous manner. The mechanical air eliminator is a mechanism that must be manual used and the mechanical air eliminator comprises a plunger system that releases air. The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew F. DeSanto whose telephone number is 571-272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.
